Changes for the Better

MSZ-DW

SERIES

R32

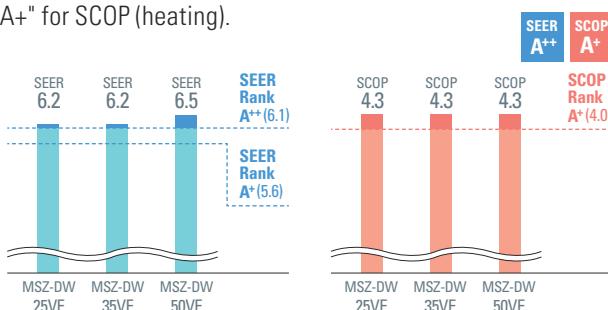

Simple and Compact Design

The stylish design makes it a natural match for any room. The width of indoor units is compact, making installation in smaller, tighter spaces possible.

Energy Saving

Mitsubishi Electric's inverter technologies are adopted to provide automatic adjustment of operation load according to need. This reduces excessive consumption of electricity, and thereby realises Energy Rank "A++" for SEER (cooling) and "A+" for SCOP (heating).

Simple Control

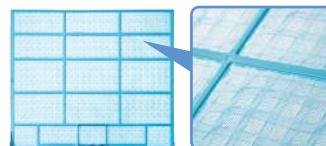

The simple remote controller and functions provide the easy control solution and comforts of life.

Other Functions

Air Purifying Filter

Bacteria Mold Odour
Suppression Removal

Air Purifying Filter generates stable antibacterial, antifungal, and deodorant effects.

The three-dimensional surface expands the filter's capture area and contributes to the better dust collection performance than conventional filters.

Wi-Fi and System Control

Wi-Fi Interface (Optional)

Optional interface and a Cloud-based solution "MELCloud" enable users to control air conditioners and check operating status via devices such as laptops, tablets and smartphones.

System Control Interface (Optional)

- Remote on/off operation is possible by input to the connector.
- Depending on the interface used, connecting a wired remote control such as the PAR-41MAA is possible.
- Centralised control is possible when connected to M-NET.

Outdoor Units

Single connection

MUZ-DW25VF

MUZ-DW35VF

MUZ-DW50VF

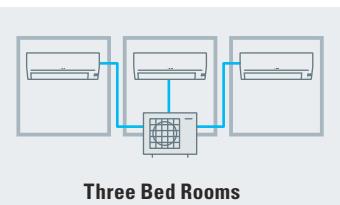

Multi connection

MXZ-2HA40VF
MXZ-2HA50VF

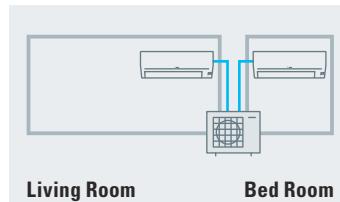

MXZ-3HA50VF

*MSZ-DW50VF is not connectable to MXZ outdoor units.

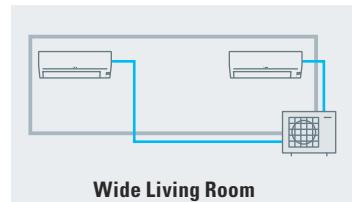

Multi-port outdoor units (R32 MXZ) make it possible easily to provide wide range and various simple combinations.
